

Join us in shaping
the future of medical
technology

We are looking to fill this position as soon as possible:

Global Downstream Product Manager (m/f/d) in Marketing

 Western Europe

Join Acandis and help shape the future of neurovascular therapy! We are hiring three Global Downstream Product Managers to drive global adoption of our life-saving products and collaborate internationally to make a real impact.

Your responsibilities:

- Lead global marketing and product launch plans to drive adoption
- Conduct market research and identify new opportunities
- Execute integrated campaigns that create awareness and demand
- Build relationships with KOLs and support sales teams
- Collaborate with cross-functional teams to align strategies
- Track and optimize product and campaign performance

Your profile:

- 5+ years in medical device marketing or sales (neurovascular preferred)
- Strategic thinker with strong communication and stakeholder management skills
- Technical and commercial understanding
- Ability to work independently in a dynamic environment
- Fluent English (German strongly preferred)
- Willingness to travel internationally up to 40%

What we offer:

- International, interdisciplinary team and flat hierarchies
- Opportunities to shape global marketing strategies
- Take responsibility and make a tangible impact in neurovascular therapy

Who we are:

At Acandis, we develop and manufacture medical technology that makes strokes treatable and improves the lives of thousands of patients. Our "Made in Germany" innovations are used in over 60 countries – and every single product can save lives when it matters most.

What makes us unique:

At Acandis, scientific expertise and technological innovation come together in an international, interdisciplinary team. Flat hierarchies and an open work environment give you the space to contribute ideas, take responsibility, and achieve great things together.
